## HALT THE GENOCIDE IN LEBANON

**On July 12, 2006** Israel begins its brutal and inhuman aggression against entire Lebanon.

From that day on, Lebanon has been subjected to a total blockade!

The cities and the villages are besieged; the airports, the roads, the bridges, the factories, stations and the dwellings are bombarded continuously and without any respite!

Who or what gives the Israelis this absolute and unique right that allows the Hebrew State without remorse or reserve? Is it their military power that they refuse for their adversaries? that they can kill with impunity while on the other hand they denounce "violence" accomplished does this capacity come from a divine capacity that only they have, being the "elected people"?

How many deaths and massacres will they still make? Is this retaliation for the two Israeli soldiers they have been waiting for to incur their policy envisaged long ago which consists to put at risk to destroy Hezbollah?

**The Lebanese economy has been put to ground** in just a few days after being gradually rebuilt over fifteen years.

### **Brutal, blind and barbaric attack**

Tens and tens of civilians die each day, hundreds are wounded, hospitals are destroyed and hundreds of thousands Lebanese are victims of horrible attacks. The civilian population is truly taken as hostage.

**All the humanitarian convoys** – drugs, products of first needs – are blocked by the Israeli aviation. All the commercial routes are closed.

It is unfortunately obvious that these barbaric attacks are well beyond simple responses or defensive tactics! **KILLING INNOCENTS IS NOT AN ACT OF SELF-DEFENCE!!!!**

means of transport are destroyed population and to better strike it th

Israel and great powers – the United States and the United Kingdom primarily – legitimate their actions and positions by charging the responsibility for this catastrophe to the Lebanese Resistance, Hezbollah.

The Israeli attacks are in **total vio international law**, were it be only considers the non-observance of l sovereignty, its disproportionate c width and in particular the use of t particularly destroying purposes.

Are you unaware that the Israelis hold in their dungeons several hundreds of Lebanese prisoners including some for **more than 20 years**, to speak only of them?

Dear leaders, European, American, Russian and others, **you call that self-defense?**

The military action of Hezbollah is military action! Are you unaware th  
Lebanese State and the Hebrew S  
been at war for more than 50 year  
have the right to resist, fight and d  
ground?

**What is the international commi**

Some call for peace without much  
when others approve, support and  
unjustifiable!!!

The world must know that the sovereignty of Lebanon is continuously aggressed. The airspace, maritime space and terrestrial space are systematically violated by the Israeli army.

Even when, for over 20 years they were in the south of Lebanon, they did not cease to violate the sovereignty of our country.

**Tens of resolutions** were voted by the United Nations (UNO) against Israel and **EVER** have not been respected without getting the reaction of all the self-called «democracies» countries!

The UNO « reflects » on the possibility of sending to the Lebanese-Israeli border “an international force of safety and observation or a force of stabilization”, call it what you want.

But we already have the UNIFIL in Lebanon for more than 20 years!!! What have they achieved so far? NOTHING! Certainly for lack of political will, especially lack of political good-will.

Then Mr. Annan, save your strength. Let us know when and if you can make a concrete and rightful decision! From our own experience, we don't expect anything from you, besides abiding to the United States orders.

George Bush and his government do not hide their unconditional support for Israel and this in spite of the massacres of the civil population even now!

As for Europe, it approves the Israeli actions while deploring its hardness!

What tragedy to see that these same countries which assert and use pretexts for supposedly defending values in the world such as democracy, freedom, sovereignty, human rights, equality between the people, guarantee, support and give reason to a country which has never respected any of these values!

**On the picture above**, Israeli children are encouraged with hatred, to sign on bombs that will be sent to kill other Lebanese children!!!

Why want to deprive Lebanon of every right and any possibility of defending himself whereas it is our absolute right? If our enemy were other than Israel, would it be the same?

You unceasingly are harped that I apply the **resolution 1559** of the U.N. which has for sole objective the disarmament of our resistance.

How and why can the international community require such a thing when our only defense towards such an aggressor is resistance?

Why must the international law ap countries and not on others? Israe respected any resolutions the UN for more than 30 years! And yet, tl to adapt very well, too bad for us!

To put an end to these barbaric behavior, Bush, Blair, Chirac, Poutin and the others require:

- Not a cease-fire, but only to create the conditions of a cease-fire
- The return of the Israeli soldiers safe and sound
  
- The stop of the bombardments on the Israeli territory
- The disarmament of Hezbollah
- The deployment of the Lebanese army at the border with Israel

Only when all these conditions are observed would Israel have "to stop operations".

**But who are they kidding? Who us for?**

Does Lebanon have to undergo all this brutality and we must expose ourselves completely while the Israelis continue to massacre us with the consent of the entire world ?

A position shared by Great Britain. The conflict “would stop now if the soldiers who were wrongfully taken by Hezbollah were released. If the rockets stopped falling on Haifa, deliberately to kill civilian innocents. If these two conditions are met, I will be the first to say that Israel must cease its operations”, **Tony Blair claims.**

**John Bolton**, ambassador of the US to the UN, recalled: “a cease-fire is the alpha and the omega of the situation. No one has explained how one concludes a cease-fire with terrorists”.

---

**What about our prisoners held in Israel ?**, What about our families who have been waiting decades? And what about the Lebanese civilian massacred, wounded and displaced?

The international community requires “the stop of bombardments” on the Israeli territory and “military operations”!!!!!!!

Understand then, that when the Lebanese defend themselves, they “bombard and make terror” when Israel kills the innocent ones, it’s a “military action”, therefore legal, therefore justified

Is it because we are Lebanese and not Israelis that we deserve to die? Do our lives worth the lives of our leaders?

Is the death of our people standardized so much by the speeches of your politicians and you are convinced that our death is justified, normal, and even natural!

**Lebanon and the Lebanese pay the full price of this injustice!** They undergo this terror to live freely without undergoing the permanent aggressions of Israel. We no longer want to live in their furious madness!

**React quickly before it is too late**, for you should know, we will **NEVER fold nor surrender** to **barbaric behaviors** and it is our duty to save our magnificent country of the Cedars!

---
